## DOWNSIZING YOUR HOME

**Moving to a smaller home can be stressful especially when you've collected a lifetime of memories and belongings.**

There are many things to consider when needing to reduce and let go.

- ☞ Planning how to best use the available space in your new home
- ☞ Deciding what to take to your new home
- ☞ Decluttering your existing home for sale or rent
- ☞ Preparing & packing for the move, and then unpacking
- ☞ Being ready to say goodbye to treasured belongings
- ☞ What to do with the things that can't move with you

### How Clear Space Can Help

**Planning the Move** - together, we'll come up with a plan that considers your personal situation, objectives and time frames. And then use that plan to organise your entire move.

**Motivation** - sometimes, starting is the most difficult step. We'll provide both emotional and physical help to get you motivated and inspired. By understanding your personality and how it may impact the move, together with your goals, the challenges you face and what bothers you, we'll support and guide you throughout the entire move.

**Decluttering** - saying goodbye to treasure belongings is hard to do. We'll help you decide which are the most important to take, so you can love your new home as much as your current one.

**Space Planning and Furniture Placement** - we help plan how to make the most of the available space in your new home and how to best fit your existing furniture and belongings.

**Packing, Transporting and Unpacking** - our packing and transport services provide the know-how to ensure the move is fast, easy and stress-free. And there's nothing like coming into your new home with it all set up, boxes out of sight, ready for you to relax and enjoy.

**Clearing the Home** - we'll redistribute, sell or donate your unwanted items, remove hazardous materials, dispose of electronic waste and securely destroy all paperwork & documents.

Whether you're moving to a smaller home, Retirement Village, Aged Care Facility or simply need to declutter your existing home and life, **Clear Space will help remove the stress and worry - and anything else that needs to go.**
