"The seminars conducted at the IKEA store by Rebecca as part of our Store & Organise activity were extremely popular. Our customers learnt new ways to utilise clever IKEA storage solutions to make their lives easier. She was great to work with and really knew her stuff."

"A very worthwhile and valuable session where the content was relevant to the topic advertised. Rebecca spoke well, was clear and concise and very professional. Rebecca was at the same time down to earth, which allowed everyone to relax and enjoy the session....we just did not want it to end!"

"Great. I've already had a chance to start implementing changes. Well weighted, digestible amount of practical info and take 'home' tasks to put straight into practice. I already have an empty in tray and inbox!"
