## DOWNSIZING YOUR HOME

**Moving to a smaller home can be stressful,  
especially when you've collected a lifetime  
of memories and belongings.**

**There are many things to consider when needing to reduce and let go.  
How Clear Space Can Help**

**Managing the Move** - together, we'll come up with a plan that considers your personal situation, objectives and time frames. And then use that plan to organise and manage your entire move and book all the required resources, including removalists we know and trust.

**Support and Motivation** - sometimes, starting is the most difficult step. By understanding your personality and how it may impact the move, together with your goals, the challenges you face and what bothers you, we'll support and guide you throughout the entire move.

**Decluttering** - saying goodbye to belongings is hard to do. We'll help you decide which items are the most important to take, so you can love your new home as much as your current one.

**Space Planning** - ideas on how to make the most of the available space in your new home and how to best fit your existing furniture and belongings.

**Physical Help** - let us do all the work getting everything out of those hard to reach places in your home such as garages, garden sheds, cellars, kitchen cupboards and roof spaces.

**Packing and Unpacking** - we can deliver all the materials you'll need, pack your entire home and then unpack so your new home is ready to enjoy - we'll also remove all packing items.

**Clearing the Home** - we have the know-how and networks to sell unwanted items on your behalf including cars, trailers and caravans, donate your unwanted items, recycle as much as possible, dispose of hazardous materials, remove all types of waste, securely shred paperwork and redistribute items to family and friends, any where in the world.

**Preparing the Home for Sale and Settlement** - we'll work with you and real estate agent to help prepare your home for open inspections and then handing over to the new owners.

Whether you're moving to a retirement village, smaller home,  
or simply need to declutter your existing home and life,  
**Clear Space will help remove the stress and worry.**
