**Clearing an estate is a stressful,  
emotional and physically demanding time for all**

## HOME and ESTATE CLEARANCES

If you're needing to clear an estate, where do you start, how will you find time and who will help? And more importantly, what do you do with everything in it?

There are many things to consider when needing to let go.

For many people, the task of dealing with a lifetime of memories, personal items and belongings is overwhelming.

Who do you trust to take care of everything if you're not in a position emotionally, physically, have no one to help or live some distance away?

In all these situations, Clear Space can help with each and every step involved. We take pride in ensuring the estate is managed professionally and transparently.

We are experienced in dealing with whole house clearances, police checked, fully insured and use strict security procedures.

Once you've removed all the wanted items, you can leave the entire job to us.

We provide a sensitive, compassionate and understanding service and the emotional and physical support to make the task quick, cost effective and stress-free.

### How Clear Space Can Help

**Motivation** - sometimes, starting is the most difficult step. We'll provide both the emotional and physical help to get you under way and finish.

**Clearing the Home** - we take the time to locate and sort all personal effects, photographs, letters, papers and memorabilia that are important to the family. We then redistribute, sell, donate and recycle your unwanted items, remove hazardous materials including paint and chemicals, dispose of electronic waste and securely shred paperwork & documents. We pack and deliver items to beneficiaries whether they are local, interstate or overseas.

**Coordinating the Practical Services** - cleaning, rubbish removal, gardening, tradespeople, storage and preparing the home to sell or rent. We can arrange it all.
